Contents

I. Introduction	1
II. Barge Market Performance and Industry Drivers.....	2
III. Dry Cargo Commodity Forecasts Through 2024.....	14
A. Methodology and Data Sources	14
1. Macro Economic Environment and Assumptions	15
B. Aggregate Barge Demand Summary.....	18
C. Commodity Forecasts: Coal.....	19
1. Domestic Utility.....	21
2. Export.....	27
3. Industrial/Metallurgical/Other	38
D. Petroleum Coke.....	39
E. Farm Products.....	41
1. Corn.....	43
2. Soybeans	47
3. Wheat	50
4. Animal Feeds	51
F. Steel	53
G. Steel Sector Raw Materials.....	56
1. Scrap Steel & Scrap Substitutes.....	56
2. Ferroalloys, Manganese Ore	59
3. Iron Ore.....	59
H. Fertilizer.....	60
I. Construction Related Commodities.....	62
1. Cement	62
2. Limestone, Sand & Gravel.....	63
J. Forest Products	65
K. Miscellaneous Dry Bulk Commodities.....	66
1. Lime	67
2. Gypsum.....	67
3. Aluminum Ore	68
4. Salt	70
Summary Table: Historical & Projected Dry Cargo Tonnage for The Mississippi River System and Gulf Coast Waterways: 2009-2024	72
IV. Barge Supply Considerations.....	73
Projected Net Fleet Attrition.....	79
V. Overall Barge Supply/Demand Balance	80
Projected New Hopper Construction Needs	84
